HARDY TREES, SHRUBS, PLANTS AND BULBS

All for Spring Planting

Western Union Telegraph and Long Distance Connection. Wire Orders When in a Hurry, to Avoid Delay. Telephone Ashford No. 2 Through Marion Exchange.

NOTE TO CUSTOMERS

OUR LOCATION

Is in the heart of the Blue Ridge Mountains, "the most beautiful mountain region on the continent," in western North Carolina, nearly 4,000 feet above sea-level. My permanent headquarters is Ashford, McDowell County, North Carolina, on the Clinchfield Railroad and U. S. Highway No. 221. Six miles south of Blue Ridge Parkway, Via Linville Falls.

QUOTATIONS

This list cancels all previous offers. Do not order from old catalogues. Send for new copy. All offers of stock are made subject to conditions beyond my control.

PACKING AND GRADING

Will be done in the most careful way. Orders will be packed to insure arrival in good condition. Shipments will be delivered to the local freight, express, or post office at prices named in this Catalogue. Packing will be charged at cost on charge orders. All shipments delivered at cost and risk of customer. Certificate of inspection attached to all shipments.

REMITTANCE OR REFERENCE

Should accompany orders from unknown correspondents. Discount of 5 per cent on cash orders amounting to \$5.00 and over only. All bills due and payable 30 days from date of invoice. Interest charged after 30 days. Add 20% to Parcel Post orders. Any excess will be returned or charged as the case may be.

SHIPPING INSTRUCTIONS

Should always be given fully, unless you prefer to leave to our best judgment. In this we assume no risk, our responsibility ceasing upon receipt of signed bill of lading by forwarders. All Claims for damages in transit must be handled by consignee.

CLAIMS

All claims for errors must be reported upon receipt of goods and will be rectified promptly. Unless this is done we cannot accept responsibility of any kind.

No GUARANTEE is made that stock will grow, whether planted by us or not. As we have no control over after-treatment or weather conditions, the purchaser must assume all risks after stock leaves our Nursery in good condition.

In no case shall we be held for damage exceeding original purchase price and only to this extent when proper proof is furnished that stock has been wrongly labeled.

All orders are accepted and filled on these terms, unless otherwise agreed.

ORDERS NOT ACCEPTED FOR LESS THAN \$3.00

FALL PLANTING SEASON begins in August and extends usually till about December 1, according to weather conditions.

SPRING SHIPMENTS are forwarded according to customers' wishes and subject to conditions beyond our control, March 1 to May 15. PLEASE ORDER EARLY.

WE SHIP all winter according to weather and locality served.

PRICE LIST FOR SPRING PLANTING 1956

NATIVE MOUNTAIN WILDINGS

This list contains a variety of Herbaceous plants furnishing a succession of bloom from early spring to late autumn, all having been tried out with success in cultivation. The height indicates the approximate height of each plant as found in wild state. The time of blooming naturally depends on locality.

Hardy Native Herbaceous Perennials

NOTE: "DECIDUOUS" indicates that tops die down annually. "EVER-GREEN" remaining green the year-round. Both represent Perennials, lasting many years.

TO OUR CUSTOMERS AND FRIENDS

We regret to report a disastrous fire December 13, 1955, resulting in a total loss to our packing house, storage building and contents. Estimated loss about \$30,000, including about 250,000 various leading plants stored for filling spring orders. Many of these plants cannot be replaced before next growing season. Although the loss is heavy, we will do our best to fill spring orders, as promptly as possible. By next fall we expect to have our stocks built up to normal again.

Hardy Native Plants for Rock-Gardens and Naturalizing

Leaf-Mold — Nature's Plant Food

This is the food nature provides for Azaleas, Rhododendrons, Kalmias, Leucothoe, Andromedas, Hemlocks, Pines, Ferns, Lilies, Trilliums, Native Orchids, and Perennials. Leaf-Mold gives the proper acid elements to the soil, insuring the best root-systems, foliage, and flowers. Valuable for old or new lawns. Leaf-Mold is collected from old Rhododendron beds, without artificial or chemical treatment.

Hardy Native Ferns

PRICED LOW — QUALITY CONSIDERED

For shady locations, no class of plants can equal the Ferns. They are easily grown in ordinary soils and will often thrive where it is impossible to make flowering plants succeed. We handle large quantities of Ferns annually and recommend the following:

	PRICE EACH			
	1-9	10-24	25-250	1000
ADIANTUM pedatum. Maidenhair Fern. Deciduous. 12-18 ins. One of the most distinct and beautiful ferns. Prefers moist shady location. Strong clumpy plants	\$.30	\$.25	\$.20	\$.16

Cultural Directions for Azaleas, Broad-leaved Evergreens, and Similar Plants

Azaleas, Kalmias, Leucothoe, Pieris and Rhododendrons are acid-soil plants and will not succeed well in limestone soils. A deep, porous soil is essential. The ground should be excavated to a depth of about 2 feet, working in leaf-mold, humus, or well-rotted stable manure. This mixture must be worked in carefully and packed tight around the roots. Fill in the excavation with rotted sods, muck or peat soil, mixed with a small quantity of sand.

The plants should be set the same depth as in the nursery, which is shown by the earthline near the base. After planting, mulch with several inches of leaves or light litter, allowing this mulch to remain around the plants, and renew it annually in the autumn. A thin covering of rich soil may be used to advantage in holding mulch in place and to assist in the decomposition. The mulch also tends to keep the soil cool in summer and protects against freezing in winter. If these simple instructions are observed, your planting of Broad-leaved Evergreens will be entirely successful.

For use in beds of Rhododendrons, Azaleas, and other similar plants we recommend the following: Galax, Shortia, Ferns, Orchids, Lilies, Trilliums, Cimicifuga, Iris, Polygonatums, Sanguinarias, and most of our other perennials.
